

On March 2, 2023, Training Center LLC, which is a structural division of Uzbekistan Airways, a fire safety event was held on topic “Actions of the management bodies, civil protection units and personnel of the training center in the event of a fire”. This event was held to mark the 27th anniversary of the establishment of the Ministry of Emergency Situations of the Republic of Uzbekistan and to prevent dangerous situations.

During the event, the employees of the ministry explained to the participants how to behave and act correctly in the event of a fire, and to observe safety rules. At the same time, the process of preventing possible causes of fire and providing first aid to those injured during the fire was demonstrated. In addition, detailed information was given on the correct use of special technical equipment, their types and characteristics, used in rescue operations and fire situations.
