Notes to Annex No. 3 dated March 29, 2026 (Textile Products)

a) In addition to the published rates, the following surcharges shall apply as specified in the Cargospot information section Master Data → Other/Local Charges:

- **EUR 0.15/kg (MYC)** – Fuel surcharge, calculated and charged based on the actual gross weight of the cargo except for domestic (internal) routes;
- **EUR 9.00 (AWC)** – Charged for the processing of one Air Waybill (AWB);
- **EUR 7.00 (MCC)** – Charged per AWB for customs pre-advice to the authorities of the EAEU countries (Russian Federation, Belarus, Kazakhstan, Kyrgyzstan, Armenia), the United Kingdom, Israel, and the UAE;
- **EUR 20.00 (MCC)** – Charged per AWB for customs pre-advice to the authorities of the European Union and the USA.

The application of the published rates is permitted for the supplementary loading of scheduled passenger flights.

b) **The rates indicated in Table No.1** apply only to the textile products listed in Table No.2 (textile commodities identified by their CORRATE codes).

For textile goods not specified in CORRATE codes in Annex No.3, but manufactured in the Republic of Uzbekistan and exported by local entrepreneurs or artisans, the CORRATE code 2455 (Knitwear and Textile Articles) shall be assigned.

In such cases, the shipper and the Uzbekistan Airways cargo sales agent must provide a certificate of origin confirming that the goods were produced in the Republic of Uzbekistan.

c) **Textile products not listed in Table No.2 of this Annex No.3** shall be transported in accordance with the published tariffs for general cargo (Annex No.1).

d) **Usage of textile product CORRATE codes:**

1. Uniform documentation: If an AWB includes several consignments of textile products only, indicate the CORRATE code for the first item in the “Commodity” field, while specifying the names and corresponding CORRATE codes of the remaining items in the invoice. The freight charge shall be calculated based on the total gross weight of the shipment.
2. Consolidation with other cargo categories: Textile products may be consolidated with other cargo types (including “General Cargo”) within a single AWB. Each cargo category shall be rated separately based on its total gross weight, according to the applicable tariff net scale.
3. Unified rating within the category: For multiple items of textile products with different CORRATE codes under one AWB, a single rate shall apply based on the total weight, without separate calculation per item. It is acceptable to use a general commodity description such as “Textile and Knitwear Products.”

Appendix No. 3 dated March 29, 2026 Published Cargo Rates — Textile Products

Table No. 2

№	CORRA TE Code	Description
1	1214	Faux leather, artificial leather products
